PROJECTS

Vehicle Management System

- Developed a vehicle expense and profit management system using Node.js and Supabase.
- Implemented vehicle-wise trip management with income, diesel, driver payment, EMI, and itemized other expenses.
- Added automatic total expense and profit calculations with date-wise and vehicle-wise reports.

JavaScript Quiz Application

- Developed an interactive quiz application using HTML, CSS, and JavaScript.
- Implemented multiple choice questions, timer, score tracking, and result screen.
- Designed a clean and responsive UI with smooth animations and local storage for saving scores.

DigitalOrbit – Digital Agency Website

- Designed and developed a responsive digital agency website using HTML5, CSS3, and Bootstrap 5.
- Included services, portfolio, testimonials, contact form, animations, and modern design.
